## Summary

Full-stack Web Developer passionate about back-end and front-end design. Recently earned a certificate in full-stack development from the University of Texas at Austin. I am quick to learn new tricks and adapt easily to what is necessary as well as always willing to try something new. I work well independently and as part of a team. Experienced in HTML, CSS, JS, Node, sales, management and teaching. I am passionate about innovation, creativity and approaching programming challenges from different angles and collaborating with others to create meaningful web applications. My career objective is to gain entrance in a respected and reliable company. If hired, I will be sure to meet the high standards of this company.

## Education

### ***Lansing Community College***

*2011-2013*

Lansing Community College provided me with a core foundation of higher education. While attending, I made the Dean's List each semester due to my dedication to success. LCC also granted me a certificate as a CSS while working to gain entrance into their nursing program.

### ***Paul Mitchell the School Houston***

*2014-2015*

Paul Mitchell prepared me to work in a salon setting. While there, I stood out in the honors Phase II program and on the Design Team which included one of a kind events such as doing bridal hair for a David Tuturo fashion show. Paul Mitchell provided foundation knowledge on coloring, cutting, and styling.

### ***University of Texas at Austin***

*2020*

UTA provided a program to gain experience working and learning independently and within groups at a fast pace. Completing the full-stack web development program at UTA provided me with foundational knowledge in:

- JavaScript
- HTML5
- CSS
- jQuery
- Responsive Design
- Bootstrap
- React.js
- MongoDB
- PHP frameworks like Laravel
- MySQL
- Heroku
- Security and Session Storage
- User Authentication.

## **Employment History**

### ***American Cancer Society***

*Call Center Representative - September 2012 - 2014*

Using provided computer software, I navigated the system to fulfill my position. Tasks included routing patients to ACS information hotline to find support available in their local areas as well as taking donation pledges and processing credit card payments.

### ***The Upper Hand Salon***

*Stylist, Educator - June 2016 - Present*

The Upper Hand Salon provides me with an abundance of ongoing education and creative opportunities. I keep very busy behind the chair as I provide a full spectrum of services. In addition to servicing my clientele, I have developed the apprentice education program within the salon and provide the apprentices with a competitive curriculum to prepare them to become knowledgeable in sales, customer service, and cosmetology skills.

### ***Goldwell / KAO***

*Independent Contractor, Educator - October 2019 - Present*

Goldwell provides me a platform to educate regionally within Texas. This allows me to provide advanced, technical education to other established hair stylists. This task requires me to get creative by building each lesson from scratch that will be engaging and informational. Professionalism and public speaking skills allow me to thrive in this environment.
